

Alex Moreau

Backend Software Engineer

Lyon, France | alex.moreau@example.com | +33 6 12 34 56 78 | github.com/alexmoreau-example

Profile

Backend engineer with 4 years of experience building Python APIs and data-heavy web applications. Comfortable across the stack with TypeScript and React, and in production with Docker, AWS and CI/CD.

Experience

Software Engineer | Rivermark Logistics, Lyon

Mar 2024 - Present

- Designed and shipped REST APIs in FastAPI and Postgres serving 2M requests per day for route planning.
- Cut p95 latency from 900 ms to 220 ms by adding Redis caching and rewriting slow SQL queries.
- Built a React and TypeScript admin console used by 60 dispatchers, with Jest and pytest suites running in GitHub Actions.
- Containerized 6 services with Docker and deployed them on AWS (ECS, RDS, S3).

Junior Developer | Pixelforge Studio, Lyon

Sep 2022 - Feb 2024

- Maintained Django back-office applications and wrote Python import scripts for client product catalogs.
- Introduced code reviews and Git branching conventions for a team of 5 developers.

Projects

Open-source contribution | Async job queue

- Added retries with exponential backoff and Prometheus metrics to a small open-source Python job queue, covered by pytest.

Education

MSc in Computer Science | Rhone Valley University | 2020 - 2022

BSc in Computer Science | Rhone Valley University | 2017 - 2020

Skills

Languages: Python, TypeScript, JavaScript, SQL, Bash

Backend: FastAPI, Django, REST APIs, PostgreSQL, Redis

Frontend: React, HTML/CSS

DevOps: Docker, GitHub Actions, AWS, Linux, Git

Testing: pytest, Jest

Languages

French (native), English (fluent, C1)
